**Manual Shades:**

*Please answer the following questions & check the boxes that apply:*

1. If shades are too large to all fit on R16 clutch, should they be  split R16 &R24 or  all R24?  
*Shade width & fabric thickness determines the size of fascia required.*
2. If shades are too large for manual system, should width be  split or  motorized?

**Motor Shades:**

- Operation:  ILT     Standard     Altus     Low Voltage     Battery     QED  
 Switch     Group Control     IGC Control     RP60     Control by Others
- Remote:  IR     Radio     Sun Sensor     Wind Sensor (exterior only)

**Note:** 3" Fascia - Standard w/R16 | 4" Fascia - Standard w/ R24 & Motorized | 4 3/4" x 5" Headbox - Optional - All Shades
